

## [競賽二]Essay Competition 2025

The competition is open to participants around the world and receives thousands of entries. The competition is assessed by guest judges who are experts in their field and influential names in their industry. For each round, **ten students are awarded a 100% scholarship** to study a programme online or at a leading institution such as the University of Cambridge, the University of Oxford, the University of Sydney or University College London. Scholarship. Winners will receive personalised feedback from the guest judge who marked their essay. We also offer partial scholarships from 10%-50% to students who submit strong essays.

## Essay Competition | Quick Facts

This competition is open to young people aged 13-18

All nationalities can enter the Competition

Submit an essay for the chance to win a full or partial scholarship to attend a programme online or in locations like Oxford, Cambridge, London, New York, San Francisco, Toronto or Sydney

## Why Should I Enter The Competition?

### 01: Grow your academic writing skills

Essay writing is a big part of university and college life. Knowing how to convey your ideas and opinions clearly and coherently can often be the difference between an assessment that gets a C or an A. By participating in the Essay Competition, you'll be challenging your academic writing skills as well as your ability to research topics independently, reference your reading and enhance your subject knowledge.

### 02: Build your knowledge

A necessary part of writing a good essay is knowledge-building which comes from independent research. Throughout the process of writing your essay, you'll start to build a stronger understanding of your chosen topic while also identifying any gaps in your knowledge. Once finished, you can use your completed essay as a sample of your understanding of the subject and academic writing skills for university applications.

### 03: Be more prepared for university study

The competition aims to challenge you in a similar way that university essays do, engaging your independent learning skills, academic writing and your skills in working towards a deadline. The skills you develop as you write your essay will benefit you for school now and for university study later down the line.

### 04: Shout about your achievements

We like to celebrate hard work, which is why all participants who receive an award for their submission will get an official Immerse Education Essay Competition Award

certificate confirming their participation in the competition and their outcome. You can shout about your achievement by sharing your virtual award on social media - a great way to demonstrate your academic success!

### **05: Win a transformative experience**

And of course, entering the competition means that you're in with the chance of winning an unforgettable experience to study amongst like-minded peers from all around the world in world-renowned locations. During your time with Immerse, you'll continue to extend your knowledge and skillset as you study under expert tutors and gain the full experience of university life.

#### **How do I choose an essay question?**

All essays must answer either one of our pre-set questions or a question you have created yourself for one of our available subjects.

When choosing your essay question, it's important that you choose a topic and question that strikes your interest. Writing an academic essay can be challenging, but if you choose a topic you're already interested in, you'll find the process a lot easier.

We recommend choosing a question from the subject you would most like to study. If you're not sure, write down the questions you're most interested in before narrowing down your choice to just one.

#### **Open Question**

Can't find a question that strikes your interest? You can create your own question! Build a question based on an available subject for your age group and write your essay in response to it.

Our essay questions are categorized under two main pathways: Academic and Career.

These categories guide the teaching approach of the programmes associated with the essay questions.

Academic Pathway programmes focus on deepening knowledge in subjects like biology, English literature, and economics through a blend of lectures and practical sessions, hosted at top universities for a campus-based educational experience.

Career Pathway programmes immersive industry experience in sectors such as business and engineering, offering experiential learning through workshops and site visits in major city hubs to build practical skills and industry knowledge.

## Essay Specifications

**Entrants should ensure they have read these specifications prior to submission as failure to comply with these specifications may result in disqualification.**

- Your answers should be no more than 500 words +/- 10% (excluding references, headings and title text.)
- Only one entry is allowed per person.
- Essays should be submitted directly via the competition entry form.
- Essays received by email will not be considered.
